Stella di Caffè 2 Groups – Standard

Multi-boiler injection machine

With its both contemporary and original vintage design, **Stella di Caffè** guarantee an exceptional extraction thanks to its **Thermalink network®** technology which control the energy supply and assure a perfect thermal stability with a PID regulation. It's the ideal machine for café, bars with coffee consumption of 10-12Kg per week on average, as well as coffee shops and establishments specialized in fine coffee offer which require accurate regulations and a maximum steam capacity.

SPECIFICATIONS

- **Large copper boiler 8.9L** – 6550W PID thermally regulation with pressure sensor
- **2 Independent coffee boilers : 1.65L - 2000 W per group** – PID regulation with thermostatic probe
- **THERMALINK NETWORK®** technology: maximum power used 6700W
- **LCD touch screen** 4.2 inch for access to programmation menus: temperature and volume regulation per group, steam boiler pressure and hot water parameter and Steamair, drinks counter, auto-cleaning, night/day mode, sleep timer/group stop, maintenance planning (USB interface for programmation)
- **Independent electronic boxes with capacitive touch screen** 5 buttons SELF/MAN/CONTINU/PETITE TASSE/GRANDE TASSE (or other configuration M/A)
- **Pre-infusion mechanism** (0, 3, 6 seconds)
- LED lighting (RGB) color regulation (256) and intensity
- **DOSAMAT®** technology in self functioning mode/ manual functioning mode
- 1 time programmable hot water outlet (2 programmable volumes)
- 1 **STEAM GLIDE LEVER®** manual control steam outlet with horizontal control lever and ceramic cartridge
- 1 **STEAMAIR®** automatic control steam outlet (or inox manual control steam outlet)

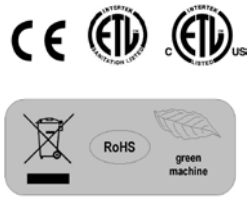

ENDOWMENT

- 2 **Easylock®** and **Energy grip®** filters holders 2 cups
- 1 **Easylock®** and **Energy grip®** filter holder 1 cup
- **Plumbing tube for water and drainage**
- **Overflow tray grid (high or low)**

OPTIONS

- **VIPER system : Electronic progressive pre-infusion per group** (Time controls /or pressure)
- **Customizable banner**
- **Chrome-plated raised legs** (11.25cm)
- **Water treatment (Softener)**

CERTIFICATIONS

FEATURES

HEIGHT	49 cm
WIDTH	79 cm
DEPTH	60 cm
WEIGHT	80 Kg

MAXIMUM SIMULTANEOUS POWER	6700 W
POWER AT STEAM BOILER	6550 W
POWER AT COFFEE BOILERS	4000 W
VOLTAGE	230V MONO 400V TRI + N
